

Call for Proposals

Neutron Scattering Science - Oak Ridge National Laboratory

Due September 5, 2012

Proposals for beam time at Oak Ridge National Laboratory's High Flux Isotope Reactor (HFIR) and Spallation Neutron Source (SNS) will be accepted via the web-based proposal system until **11:59 a.m. EDT, (NOON) Wednesday, September 5, 2012.**

This call is for experiments anticipated to run from January through June 2013.

Information and instructions

To learn more about submitting a proposal for beam time, go to <http://neutrons.ornl.gov/users/proposals.shtml> or directly to the proposal system at www.ornl.gov/sci/iums/ipts/. Previously submitted proposals may be used as the basis for new proposals. All proposals will be reviewed for feasibility, safety, and the potential for high-impact science. Before beginning approved experiments, users must complete access and training requirements and ensure that the appropriate user agreements are in place.
